Name New Factory Manager At KO'

Three changes in top level man-call of our government for industuck Chemical Division.

The changes were made necessary by the transfer of J. E. Helquist, factory manager of the Kankakee plant since the beginning of its reactivation in January of 1951. to the company's vinyl resin plant in Painesville, O.

Succeeding Helquist will be H. R. Gaetz, who currently is serving as assistant factory manager and production superintendent, while Paul Blunt, present TNT superinproduction superintendent.

ALL CHANGES will take effect living in the east. Aug. 1, when Helquist is slated to begin his new duties as plant engineer at the Ohio plant which is being expanded into one of the nation's largest plastic plants.

Gaetz is one of the "veterans" of the KNK plant, having been the present operation besides having served as production superintendent from February thru June, 1944, during the World War II operation.

He first joined the U. S. Rubber company in 1942 after 10 years joining the U.S. Rubber company. working in chemical industries at home and abroad. As a U. S. Rubber employe, he has seen service Institute of Chemical Engineers. at the Pennsylvania Ordnance Works in Williamsport, Pa., the Institute Synthetic Rubber plant work at Johns Hopkins and New in Charlestown, W. Va., and the York universities. Naugatuck Chemical plant in Naugatuck, Conn.

agement of the United States Rub- trial experts to aid in the establishber company's operation at the ment of basic industrial plants in Kankakee unit, Joliet Arsenal, Korea. As a member of the Ecowere announced today in New York namic Cooperation Administration, by John C. H. Wendes, production he stayed in Korea until the outmanager of the company's Nauga- break of the war, mapping plans for the installation of cement. glass, paper and other plants.

> Gaetz is a naturalized citizen of the United States, having been born and reared in the town of Red Deer, Alberta, Canada, He was graduated from the University of Alberta and continued his chemical engineering studies with three years of graduate work at the University of Washington.

He lives at the Arsenal with his tendent, will assume the duties of wife. They have a son and a daughter, both married and both

Blunt, who is being elevated to the post of production superintendent, has been TNT superintendent since May, 1951. This is his first post as a U.S. Rubber company employe altho as an employe of the Rubber Reserve Corporation of here since Jan. 24, 1951, during Washington, D. C., he was in constant contact with leaders in the company rubber plants.

HE ALSO WORKED for the Fraser, Brace Engineering company and at the Keystone Ordnance Plant at Meadville, Pa., before

He is a member of the American Chemical Society of the American Graduated from Wittenberg college in Ohio, he did post-graduate

Blunt is married and lives with his wife and three children in the IN 1949, GAETZ responded to the civilian quarters at the Arsenal.
